

The Participating Institutions

Valahia university of Targoviste (RO)
(Coordinating Institution)

Teacher Training and Educational
Innovation Centre Valladolid II (ES)

Teacher training Centre of Gijón (ES)

Teacher Training Centre Of Zaragora (ES)

Warsaw University of Technology (PL)

Regional In-Service Teacher Training
Centre "WOM" in Bielsko-Biala (PL)

University of Joensuu (FI)

Babes Bolyai University Cluj Napoca (RO)

University of Patras (GR)

As Virtual Instrumentation represents a real revolution in the field of instrumentation and its power in creating simulation-based learning environments is well-known, this project is addressed - on the one hand - to in-service teachers training on using virtual instruments in the teaching process of different science areas (Mathematics, Physics, Chemistry) and - on the other hand - to the pupils - as end-users - who will benefit by the implementation of the Virtual Instruments in the classrooms.

Education and Culture

Virtual Community Collaborating Space for Science Education

Comenius 2.1 Project

2006 - 2009

The VccSse Project
